

Item Code: CFS-S933

Chemical Name: (Methacryloxymethyl)methyldimethoxysilane

Typical Properties

CAS No.: 121177-93-3

Formula: C₈H₁₆O₄Si

Density: ~1.020

Refractive Index: ~1.4274

Appearance: Colorless or yellowish transparent liquid

Purity: min 95%

Applications

Used as an adhesion promoter and a coupling agent in UV cure system.

Used for surface modification of nanoparticles.

Used as an important material for the synthesis of silicone compounds.

Packaging

CFS-S933 is available in 100ml~1L fluorinated HDPE containers or 5L~25L PE pails.

Custom packaging possibilities are also available.

Transportation

Not dangerous goods.

More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
