

Co-Formula Silane Coupling Agent

Item Code: CFS-362I

Chemical Name: Methylvinyl dimethoxysilane

Typical Properties

CAS No.: 16753-62-1

Formula: $C_5H_{12}O_2Si$

Density: ~0.889

Refractive Index: ~1.395

Appearance: Colorless clear liquid

Purity: min 96%

Applications

Used for the surface modification of glass fibers and inorganic fillers.

Used for the preparation of various sealants and adhesives, especially suitable for LED encapsulation sealants synthesis.

Used for the synthesis of cyclic methyl vinyl siloxane which is the essential raw material of methyl vinyl silicone rubbers (VMQ).

Packaging

CFS-362I is available in 25L PE pails, 200L steel drums or 1000L IBC totes.

Custom packaging possibilities are also available.

Transportation

UN1993 3/PG II

More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12 months, when stored in a strictly sealed container and under proper conditions.
