

Item Code: CFS- S133

Chemical Name: Trimethoxy(4-vinylphenyl)silane

Typical Properties

CAS No.: 18001-13-3

Formula: C₁₁H₁₆O₃Si

Density: ~1.061

Refractive Index: ~1.504

Appearance: Colorless or yellowish clear liquid

Purity: min 95%

Applications

Used as a coupling agent, an adhesion promoter and a surface modifier in several industries include coatings and paints, adhesives and sealants.

Packaging

CFS-S133 is available in 0.1L~25L containers.

Custom packaging possibilities are also available.

Transportation

Not hazardous goods.

More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
