Item Code: CFS-486 Chemical Name: tert-Butylchlorodimethylsilane

Typical Properties

CAS No.: 18162-48-6 Formula: C6H15ClSi Density: ~1.225 Refractive Index: ~1.46 Appearance: White or gray crystal powder Purity: min 99%

Applications

Used as a protective agent in the synthesis of antibiotics, insecticides, vitamins, etc. Used as a silylation reagent in a wide range of organic synthesis.

Packaging

CFS-486 is available in 25L open-top cardboard drum. Custom packaging possibilities are also available.

Transportation

UN2985 3(8)/PG II More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

<u>Storage</u>

Stored in a cool, well-ventilated place, and avoid exposure to humidity. Should be stored in its original containers and used up asap after opening. The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
