

Co-Formula Silane Coupling Agent

Item Code: CFS-901

Chemical Name: 3-Methacryloxypropylbis(trimethylsiloxy)silane

Typical Properties

CAS No.: 19309-90-1

Formula: C₁₄H₃₂O₄Si₃

Density: ~0.912

Refractive Index: ~1.431

Appearance: Colorless clear liquid

Purity: min 90%

Applications

Used as an intermediate for organic synthesis.

Used as an important additive for the preparation of soft contact lens.

Packaging

CFS-901 is available in 0.1L~25L containers.

Custom packaging possibilities are also available.

Transportation

Non-hazardous for transportation.

More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
