

Co-Formula Silane Coupling Agent

Item Code: CFS-62I

Chemical Name: Methyldiethoxysilane

Typical Properties

CAS No.: 2031-62-1

Formula: C₅H₁₄O₂Si

Density: ~0.838

Refractive Index: ~1.3285

Appearance: Colorless clear liquid

Purity: min 97%

Applications

Used as an essential material to produce various functional silanes.

Use as an additive for the preparation of silane terminated polymers.

Packaging

CFS-62I is available in 200L steel drums.

Custom packaging possibilities are also available.

Transportation

UN1993 3/PG II

More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
