Item Code: CFS-549 Chemical Name: Methyltris(methylethylketoxime)silane

Typical Properties

CAS No.: 22984-54-9 Formula: CI3H27N3O3Si Density: ~0.982 Refractive Index: ~1.4548 Appearance: Colorless clear liquid Purity: min 96%

Applications

Used as a crosslinking agent for RTV silicone rubbers.

Used as a neutral curing agent in the formulation of silicone sealants. In combination with CFS-331 (abbreviated VOS), CFS-549 can improve mechanical properties and chemical properties of silicone sealants.

Used as an adhesion promoter to improve adhesion of silicone rubbers to plastics, nylon, ceramics and glass.

Packaging

CFS-549 is available in 25L PE pails, 200L steel drums or 1000L IBC totes. Custom packaging possibilities are also available.

Transportation

UN1993 3/PG III More detailed and comprehensive information can be found in the corresponding SDS.

Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity. Should be stored in its original containers and used up asap after opening. The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
