

Item Code: CFS-S315

Chemical Name: 3-Methacryloxypropyltrimethylchlorosilane

Typical Properties

CAS No.: 24636-31-5

Formula: C₉H₁₇ClO₂Si

Density: ~1.012

Refractive Index: ~1.4510

Appearance: Colorless or yellowish clear liquid

Purity: min 96%

Applications

Used as a coupling agent, an adhesion promoter, a primer and a surface modifier in several industries include glass fibers, coatings and paints, adhesives and sealants.

Packaging

CFS-S315 is available in 200L steel drums.

Custom packaging possibilities are also available.

Transportation

UN2987 8/PG II

More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
