Item Code: CFS-751
Chemical Name: Octyltrimethoxysilane

Typical Properties

CAS No.: 2943-75-1
Formula: C14H32O3Si
Density: ~0.88
Refractive Index: 1.416~1.418
Appearance: Colorless clear liquid
Purity: min 97%

Applications

Used as a waterproof and protective agent for construction, it can be used for the concrete and stone with good protective effect.
Used in hydrophobic coatings and surface treatment of inorganic fillers.
Used as a dispersant of pigments.

Packaging

CFS-751 is available in 25L PE pails, 200L steel drums or 1000L IBC totes.
Custom packaging possibilities are also available.

Transportation

Not hazardous goods.
More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.
Should be stored in its original containers and used up asap after opening.
The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
