

Co-Formula Silane Coupling Agent

Item Code: CFS-407

Chemical Name: Octyltrimethoxysilane

Typical Properties

CAS No.: 3069-40-7

Formula: $C_{11}H_{26}O_3Si$

Density: ~0.907

Refractive Index: 1.417

Appearance: Colorless clear liquid

Purity: min 96%

Applications

Used as a waterproof and protective agent for construction, especially suitable for the concretes and bricks with good protective effect.

Used in hydrophobic coatings and surface treatment of inorganic fillers.

Used as a dispersant of pigments.

Packaging

CFS-407 is available in 25L PE pails, 200L steel drums or 1000L IBC totes.

Custom packaging possibilities are also available.

Transportation

UN1993 3/PG III

More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
