

Item Code: CFS-S898

Chemical Name: (Isocyanatomethyl)methyldimethoxysilane

Typical Properties

CAS No.: 406679-89-8

Formula: C₉H₂₀O₃Si

Density: ~1.05

Refractive Index: ~1.4347

Appearance: Colorless clear liquid

Purity: min 96%

Applications

Used as a silicone auxiliary to promote adhesion in paints and coatings, sealants and adhesives manufacturing.

Used for modification of silicone resin and silicone polymers, especially for silyl modified urethane polymers modification.

Used as a coupling agent, crosslinker, surface modifier to improve physical and chemical properties of composite materials.

Packaging

CFS-S898 is available in 0.1L~25L containers.

Custom packaging possibilities are also available.

Transportation

More detailed and comprehensive information can be found in the corresponding SDS.

Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
