

Co-Formula Silane Coupling Agent

Item Code: CFS-626I

Chemical Name: Chloromethyltrimethoxysilane

Typical Properties

CAS No.: 5926-26-1

Formula: $C_4H_{11}ClO_3Si$

Density: ~0.987

Refractive Index: ~1.407

Appearance: Colorless clear liquid

Purity: min 96%

Applications

Used as an important intermediate for the synthesis of other organic functional silanes.
Used as a crosslinker and a tackifier during the production processing of RTV silicone rubbers.

Packaging

CFS-626I is available in 200L PE drums.

Custom packaging possibilities are also available.

Transportation

UN1993 3/PG II

More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
