

## Co-Formula Silane Coupling Agent

Item Code: CFS-867

Chemical Name: Triethylsilane

### Typical Properties

CAS No.: 617-86-7

Formula:  $C_6H_{16}Si$

Density: ~0.7309

Refractive Index: ~1.4123

Appearance: Colorless clear liquid

Purity: min 98%

### Applications

Used as an intermediate for the preparation of various silicone compounds.

Used as a versatile reducing agent with its active hydride.

Used as the catalyst or pharmaceutical intermediates in medicine industry.

### Packaging

CFS-867 is available in 25L PE pails, 200L steel drums or 1000L IBC totes.

Custom packaging possibilities are also available.

### Transportation

UN1993 3/PG II

More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

### Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
