

Co-Formula Silane Coupling Agent

Item Code: CFS-633

Chemical Name: Methacryloxymethyltris(trimethylsiloxy)silane

Typical Properties

CAS No.: 74681-63-3

Formula: $C_{14}H_{34}O_5Si_4$

Density: ~0.926

Refractive Index: ~1.4150

Appearance: Colorless clear liquid

Purity: min 96%

Applications

Used as an intermediate for organic synthesis.

Used as an important additive for the preparation of soft contact lens.

Packaging

CFS-633 is available in 0.1L~25L containers.

Custom packaging possibilities are also available.

Transportation

Non-hazardous for transportation.

More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
