Item Code: CFS-302
Chemical Name: 3-Aminopropyltriethoxysilane

## Typical Properties

CAS No.: 919-30-2
Formula: C9H23NO3Si
Density: 0.945~0.965
Refractive Index: 1.4200~1.4220
Appearance: Colorless or yellowish transparent liquid
Purity: min 97%

## Applications

Used as an adhesion promoter in paints & coatings, adhesives & sealants industries.
Used as a coupling agent to improve the bonding performance between organic polymers and inorganic fillers.
Used to synthesize amino silicone oil and emulsion.

## Packaging

CFS-302 is available in 25L PE pails, 200L steel drums or 1000L IBC totes.
Custom packaging possibilities are also available.

## Transportation

UN3267 8/PG II
More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

## Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.
Should be stored in its original containers and used up asap after opening.
The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
