

CFS-580, Vinyltrimethylchlorosilane

Typical Properties:

Cas No.: 1719-58-0

Formula: C₄H₉ClSi

Purity: min 99%

Key Functions:

Intermediate | Terminating Agent

Additive | Surface Modifier

Main Markets:

Organic Synthesis | Coatings

Adhesives & Sealants

Polymers | Organic Composites

Production Facilities:

Capacity: 50tons each month

Plant Location: Xiantao, Hubei

Stock Packaging: 200L steel drum
