

## CFS-765, (N-Phenylamino)methyltriethoxysilane

### Typical Properties:

Cas No.: 3473-76-5

Formula: C<sub>13</sub>H<sub>23</sub>NO<sub>3</sub>Si

Purity: min 95%

### Key Functions:

Adhesion Promoter | Coupling Agent

Crosslinker | Moisture Scavenger

Curing Agent | Surface Modifier

### Main Markets:

RTV Silicone Rubber | Coatings

Electronic Sealants | MS

Polymers | Organic Composites

### Production Facilities:

Capacity: 50tons each month

Plant Location: Qianjiang, Hubei

Stock Packaging: 200L steel drum
