

Co-Formula Silane Coupling Agent

Item Code: CFS-997

Chemical Name: Vinyltris(isopropenyloxy)silane

Typical Properties

CAS No.: 15332-99-7

Formula: $C_{11}H_{18}O_3Si$

Density: ~0.926

Refractive Index: ~1.4373

Appearance: Colorless or yellowish clear liquid

Purity: min 97%

Applications

Used as a crosslinking agent to produce room temperature vulcanized silicone rubber.

Used as a water scavenger to enhance the stability of rubber and avoid premature.

Used as a silicon-based reagent, chain extender to prepare alkoxy termination.

Used in vinyl, acrylic latex, architectural coatings and pharmaceutical industries.

Packaging

CFS-997 is available in 25L PE pails, 200L steel drums.

Custom packaging possibilities are also available.

Transportation

UN1993 3/PG III

More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
