

Co-Formula Silane Coupling Agent

Item Code: CFS-623

Chemical Name: Trimethylethoxysilane

Typical Properties

CAS No.: 1825-62-3

Formula: $C_5H_{14}OSi$

Density: ~0.7573

Refractive Index: ~1.3742

Appearance: Colorless clear liquid

Purity: min 98%

Applications

Used in the synthesis of hybrid functional polymers.

Used as a surface modifier or a weather resistance agent for substrate of printed circuit board.

Used as a promoter or electron donor.

Packaging

CFS-623 is available in 25L PE pails, 200L steel drums or 1000L IBC totes.

Custom packaging possibilities are also available.

Transportation

UN1993 3/PG II

More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
