

Item Code: CFS-954

Chemical Name: Divinyltetramethyldisiloxane

### Typical Properties

CAS No.: 2627-95-4

Formula: C<sub>8</sub>H<sub>18</sub>OSi<sub>2</sub>

Density: ~0.811

Refractive Index: ~1.4123

Appearance: Colorless clear liquid

Purity: min 99%

### Applications

Used as an important intermediate to produce vinyl silicone fluids. Such fluids are mainly applied in sealants, coatings and cosmetics industries.

Used as a basic material for the preparation of organic polymers and elastomers which are used in electronic encapsulation.

Used as an end-capping agent for the synthesis of addition silicone rubbers.

### Packaging

CFS-954 is available in 25L PE pails or 200L steel drums.

Custom packaging possibilities are also available.

### Transportation

UN1993 3/PG III

More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

### Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
