

Item Code: CFS-267

Chemical Name: 1,1,3,3-Tetramethyldisiloxane

Typical Properties

CAS No.: 3277-26-7

Formula: C₄H₁₄OSi₂

Density: ~0.757

Refractive Index: ~1.3669

Appearance: Colorless clear liquid

Purity: min 99%

Applications

Used as an important intermediate for the synthesis of various silicone oils, silicone resins, addition silicone rubbers and other organosilicon compounds.

Used as a basic material for the preparation of high-performance organic silicone surfactants.

Used as a blocking agent and a reagent for the synthesis of pharmaceutical intermediates.

Packaging

CFS-267 is available in 25L PE pails or 200L steel drums.

Custom packaging possibilities are also available.

Transportation

UN1993 3/PG II

More detailed and comprehensive information can be found in the corresponding SDS.

Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
