

## Co-Formula Silane Coupling Agent

Item Code: CFS-61 I

Chemical Name: tert-Butylchlorodiphenylsilane

### Typical Properties

CAS No.: 58479-61-1

Formula:  $C_{16}H_{19}ClSi$

Density: ~1.074

Refractive Index: ~1.5680

Appearance: Colorless or yellowish liquid

Purity: min 98%

### Applications

Used as a protective agent in the synthesis of antibiotics, insecticides, vitamins, etc.

Used as a silylation reagent in a wide range of organic synthesis.

### Packaging

CFS-61 I is available in 25L PE pails, 200L steel drums or 1000L IBC totes.

Custom packaging possibilities are also available.

### Transportation

UN2987 8/PG II

More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

### Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
