

Item Code: CFS-S479

Chemical Name: Tris(vinyl dimethyl siloxy)phenylsilane

### Typical Properties

CAS No.: 60111-47-9

Formula:  $C_{18}H_{32}O_3Si_4$

Density: ~0.95

Refractive Index: ~1.4589

Appearance: Colorless or yellowish clear liquid

Purity: min 96%

### Applications

Used as a chemical intermediate for the synthesis of silicone compositions.

Used for the preparation of optical material or used in semiconductor and electronics industry.

### Packaging

CFS-S479 is available in 0.1L~25L containers.

Custom packaging possibilities are also available.

### Transportation

Non-hazardous for transportation.

More detailed and comprehensive information can be found in the corresponding Safety Data Sheet.

### Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity.

Should be stored in its original containers and used up asap after opening.

The expected shelf life is 12 months, when stored in a strictly sealed container and under proper condition
