Item Code: CFS-651 Chemical Name: 1H,1H,2H,2H-Perfluorodecyltrimethoxysilane

Typical Properties

CAS No.: 83048-65-1 Formula: C13H13F17O3Si Density: ~1.54 Refractive Index: ~1.331 Appearance: Colorless clear liquid Purity: min 97%

Applications

Used as a surface modifier and an adhesion promoter of inorganic glasses or ceramics, to improve the bonding performance between fluoropolymers and inorganic substrates. Used for the synthesis of fluoro resin and fluoro copolymers.

Used in wooden, fabrics and cosmetics with excellent surface protection performance. Used for agricultural plastic films, acting as an important additive of dropping agents and fogging agent synthesis.

Packaging

CFS-651 is available in 25L PE pails, 200L steel drums or 1000L IBC totes. Custom packaging possibilities are also available.

Transportation

Not hazardous goods. More detailed and comprehensive information can be found in the corresponding SDS.

Storage

Stored in a cool, well-ventilated place, and avoid exposure to humidity. Should be stored in its original containers and used up asap after opening. The expected shelf life is 12months, when stored in a strictly sealed container and under proper conditions.
